3. Fuel, Extension & One-Way Rental
4. Options & In-Car Rules
5. After-Hours Return (Key Drop Box)
6. Hi-Pass & Toll Roads
7. Navigation
8. Driving in Korea

1. Office & Emergency Contacts

Service	Hours	Phone
Gimhae Airport Office	08:00–21:00 (13 hours)	+82 51 293 8000
Emergency Call (accident, roadside assistance)	24/7 (00:00–23:59)	1588-1230 (press 8 for English)

> **Accident or breakdown?**
> Call 1588-1230 at any time, day or night, and press 8 for English service.

2. Insurance & CDW

Full-coverage insurance

Your vehicle is covered by full-coverage insurance, which applies only to the registered renter and registered drivers. If a claim exceeds the limits below, you are responsible for the additional costs.

Coverage	Limit
Third-party liability	Unlimited

Coverage	Limit
Property damage	20 million KRW
Personal injury	15 million KRW

Collision Damage Waiver (CDW)

- CDW relieves you of financial liability for damage to the vehicle's exterior.
- CDW is included in every LOTTE rent-a-car rental.
- If you choose CDW with zero excess (deductible), you are fully covered in the event of an accident.
- If you decline CDW, you may not be able to rent a car from LOTTE rent-a-car.
- Some credit card companies offer insurance benefits, but they are not as comprehensive as our CDW. That is why CDW is included for every customer.

What CDW does not fully cover

Case	What happens / what you pay
Tire damage	The repair cost is covered by CDW, but the vehicle must be returned and the contract ends. If you still need a car, please make a new reservation (billed separately).
Interior damage	The repair cost is charged to you, including interior contamination, smoking damage and similar damage.
Damage exceeding 50% of the car's value	The repair cost is covered by CDW, but you pay 50% of the standard daily rental rate for each repair day (total repair days × 50% of daily rate).
Accident under the influence of alcohol or drugs	The repair cost is charged to you, plus all costs related to the accident, including criminal liability.
Accident caused by reckless or dangerous driving	The repair cost is charged to you, plus all costs related to the accident, including criminal liability.
Misfueling (wrong fuel)	The repair cost is charged to you.

If the vehicle cannot be driven

- Your contract ends and the unused part of the rental period is refunded.
- You pay 50% of the standard rental rate for the period the vehicle is under repair.

- If you need a replacement vehicle, please make a new reservation (billed separately).

Age surcharge

- Customers under 30 years old pay an age surcharge, charged per day.
- The surcharge applies to the main driver and to any additional drivers.

3. Fuel, Extension & One-Way Rental

Refueling policy

- Every vehicle is provided with a full tank. Please return it with a full tank.
- If the tank is not full, you can pay a refueling charge when you return the car.
- Damage caused by using the wrong fuel is not covered by insurance or CDW. You are responsible for all resulting costs.

Check the fuel type on the car key tag:

Key tag mark	Fuel type
(G)	Gasoline
(D)	Diesel
(E)	Electric

Extending your rental

Please contact the office before your scheduled return date and time to check whether an extension is available.

> **Important**
> If you keep the car beyond the return time without a confirmed extension, you are not covered by insurance or CDW.

One-way rental

- Please check one-way availability with the pickup office before your scheduled pickup date and time.
- The minimum rental period is 24 hours.
- An additional one-way fee applies.

4. Options & In-Car Rules

Additional drivers

- You can add up to 2 additional drivers at no extra cost.
- Each additional driver must present the required documents, including a passport and an International Driving Permit.
- The age surcharge applies to both the main driver and additional drivers.

English GPS

- An English GPS is installed in the vehicle.
- Follow the GPS directions, but also watch the road signs, as the GPS may not always be accurate.

Dashcam (black box)

- A device records the front and rear exterior of the vehicle (no audio).
- In case of an accident, the footage is provided to the insurance company or relevant authorities.

No smoking

> **Smoking is strictly prohibited inside the vehicle.**
> If you smoke inside the car, a cleaning fee will be charged.

5. After-Hours Return (Key Drop Box)

The Key Drop Box is a self-service key handover system for returning your car outside office hours.

How to return your key

1. **Park at the branch**
   Park the car in the designated return area.
2. **Find the Key Drop Box**
   Look for the red, locker-style LOTTE rent-a-car Key Drop Box.
3. **Enter your license plate**
   Tap Return on the screen, enter the last 4 digits of your license plate, choose a locker and place the key inside.

4 **Return complete**
You will receive a confirmation email.

Key Drop Box screen, step by step

1 **Tap [Return]**

2 **Select your language**

3 **Enter the last 4 digits of your license plate**

4 **Select your reservation from the search results**

5 **Choose a locker number for your key**

6 **Tap Confirm to complete the return**

Billing & important notes

- Any additional charges (fuel, tolls, fines or late return) are billed after drop-off to the credit card registered at the time of rental.
- Close the locker door securely after placing your key inside.
- The return area and Key Drop Box location may differ by branch. Please check the address in your confirmation email.
- The Key Drop Box can only be used when returning to the same branch where you picked up the car.
- Return the car with the same fuel level as at pickup (full-tank policy; does not apply to electric vehicles).

> **License plate not found?**
> Scan the QR code on the Key Drop Box guide for detailed instructions and a visual guide.

6. Hi-Pass & Toll Roads

Highways in Korea are toll roads. You can pay with a Hi-Pass card in the fast-track (blue-lined) lane, or pay manually at the toll gate.

What is Hi-Pass?

Hi-Pass is an electronic toll collection (ETC) system that pays tolls automatically as you pass through highway and other toll road gates. It works like ETC in Japan.

Buying and using a Hi-Pass card

Item	Details
Where to buy	LOTTE rent-a-car counter (prepaid card)
Price	35,000 KRW
Includes	30,000 KRW toll credit + 5,000 KRW card issuing fee

1. **Insert the card**
   Insert the Hi-Pass card into the Hi-Pass device installed in the vehicle.

2. **Check the light**
   If the light on the device is green/blue, the card has been inserted correctly.

Recharging your Hi-Pass card

- When the balance runs out, recharge the card at any GS25, CU, 7-Eleven or emart24 convenience store nationwide.
- Most convenience stores accept cash only for recharges, so please keep cash on hand.
- No cash? Recharge at a Hi-Pass machine at a highway service area or rest stop.
- If your balance is too low to pay a toll, the unpaid toll will be charged to you after you return the vehicle.

Hi-Pass lane vs. normal lane

Lane	For
Hi-Pass lane (blue-lined)	Vehicles with a Hi-Pass card
Normal lane	Vehicles without a Hi-Pass card

Using toll roads without a Hi-Pass card

1. **Take a ticket**
   Take a ticket at the entry toll gate.

2. **Hand in the ticket**
   Insert or return the ticket at the exit toll gate.

3. **Check the amount**
   Check the toll amount shown.

4 **Pay**
Pay by cash, debit/credit card or T-money card.

> **Tip for international guests**
> Payments with international cards may not always work. Please prepare cash, a T-money card or a transportation card in advance.

If there is no staff at the toll gate, use the toll payment machine:

1 **Orange area**
Insert the ticket you took at the entry gate.

2 **Blue area**
Complete your payment.

3 **Yellow area**
Take your receipt.

7. Navigation

Change the system language to English

1 **Press [SETUP]**
Press the [SETUP] button on the center dashboard.

2 **Open General settings**
Tap the General icon (gear) at the bottom right.

3 **Select [Language]**
Choose it from the menu on the left.

4 **Choose English**
The display switches to English immediately, including voice guidance.

5 **No [SETUP] button?**
Tap the arrow icon on the screen to switch modes.

Set a destination

1 **Press NAV**
Enter navigation mode.

2 **Search**
Tap Search, enter your destination and tap OK.

3 **Select**
Select your destination, then tap Route.

4 **Choose a route**
Recommended or Fastest.

5 **Go**
Tap Start Guidance.

Korean address types

Type	Description	Example
Road name address (recommended)	Modern, official system	123 Teheran-ro, Gangnam-gu, Seoul
Lot number address	Older system, still used locally	456-12 Yeoksam-dong, Gangnam-gu

Korean navigation apps

Besides the in-car navigation, you can use a Korean map app on your phone. The most popular apps in Korea:

App	Languages
NAVER Map	English / Chinese / Japanese
Kakao Map	English

Apple CarPlay / Android Auto

Step	Apple CarPlay (iPhone)	Android Auto (Android)
1	Connect via USB cable (or wirelessly if supported)	Connect via USB cable
2	Allow permission on your iPhone	Enable Android Auto
3	Select CarPlay on the vehicle display	Confirm app permissions

8. Driving in Korea

Basic rules

Topic	Rule
Driving side	Cars have the steering wheel on the left, and traffic drives on the right side of the road.
Speed unit	Speed limits and vehicle speed are in km/h. 1 mile ≈ 1.6 km.
Speed cameras	Where there is a speed camera, obey the traffic signals and the speed limit shown in the red-circled sign near the camera. Limits vary by road type (e.g. highways, school zones), so always check the posted signs.
Bus lanes	Lanes marked with blue lines are bus-only lanes. Never cross a solid blue line. A dashed blue line may be crossed only briefly to turn right or to enter a side road or building. Some bus lanes apply only at certain hours, so check the signs. Violations may lead to penalties.
Drinking and driving	Driving with a blood alcohol concentration of 0.03% or higher is drunk driving and is punished by law. Please do not drink any alcohol before driving.

Parking

Follow these guidelines to avoid illegal parking fines.

Space	Rule
Normal space (white bold lines)	Parking is allowed within the lines. Most parking lots charge a fee, so pay before you leave.
Reserved space (letters or numbers marked in or near the lines)	For authorized people only. Unauthorized parking is prohibited.
Disabled parking (disabled symbol)	Only for people with a valid permit issued by a Korean government authority.
EV parking (EV symbol or charger)	Electric vehicles only. A time limit may apply, so check it before parking.

Right turns

Situation	What to do
Vehicle traffic light green	Turn right slowly. If pedestrians are crossing or about to cross the crosswalk, stop before it and wait until they have crossed.
Vehicle traffic light red	Always come to a complete stop at the stop line or before the crosswalk first. Then turn right slowly without blocking traffic moving on a green light. If pedestrians are crossing or about to cross, wait until they have crossed.
Pedestrian signal green	Pedestrians have priority. Stop whenever pedestrians are crossing or about to cross, and turn right only when the crosswalk is clear. For safety, it is best to wait until the pedestrian signal turns red.
Right-turn signal (arrow light) installed	Turn right only when the green right-turn arrow is on. Do not turn right while the right-turn signal is red.

Left turns

Situation	What to do
Dedicated left-turn signal	Turn left only when the left-turn arrow is on. Turning left without it is strictly prohibited and may lead to legal penalties.
Blue “Unprotected Left Turn” sign (read “bi-bo-ho”)	If there is no left-turn signal but this blue sign is posted, you may turn left on a green light after checking for oncoming traffic and pedestrians.

Important
At intersections with traffic lights, do not turn left in any other situation.

Flashing signals

Signal	What to do
Flashing yellow	Proceed with caution: slow down and watch for other traffic and road signs.
Flashing red	Come to a complete stop first at the stop line (or before the crosswalk or intersection), check that it is safe, then proceed with caution.
